Index to Volume 50 of Mayo Clinic Proceedings

Aaro LA, 365
Acid-base balance: effects of parathyroid hormone on renal function, 537
Acid, gastric: chemicals that activate the "on" switches of oxyntic cell; symposium on gastrointestinal research, 515
Acoustic neuroma and suboccipital approach (1967-1972), 15
Acquired and congenital abnormalities observed in live-born and stillborn neonates, 85
Acute renal failure in rabbits, glycerol-induced; changes in plasma renin substrate, plasma and renal renin, and plasma osmolarity during, 111
Adrenal medullary hyperplasia, bilateral, in multiple endocrine neoplasia, type 2; precursor of bilateral pheochromocytoma, 3
Adult nephrotics, lipoprotein profiles in, 359
Afferent nerves: pain; a central inhibitory balance theory, 685
Albers JW, 57
Alcoholism screening test, self-administered (SAAST); use of in medical center, 204
Alternate-beat supra-His Wenckebach dysrhythmia, 475
Alveolar hemorrhage: clinical and pathologic correlation of fat embolism syndrome, 407
Alveolar soft part sarcoma; electron microscopic study, 591
Amamoo DG, 416
Amyloidosis: clinical significance of Bence Jones proteinuria, 234
Anatomic correction of transposition of great arteries, 638
Anatomy: historical review of fractures involving ankle joint, 611
Anderson CF, 359
Anemia: idiopathic postpartum renal failure; review and case report of successful renal transplantation, 395
Angiofollicular, intra-abdominal lymph node hyperplasia (plasma-cell variant) with anti-erythropoietic factor, 542
Angiofollicular lymph node hyperplasia, mesenteric (lymphoid hamartoma) with nephrotic syndrome, 317
Angiography: carotid endarterectomy; complications and preoperative assessment of risk, 301
Ankle joint, historical review of fractures involving, 611
Annegers JF, 85
Anomalous systemic venous connection; surgical considerations, 599
Antimicrobics: blood cultures; principles and techniques, 91
Aorta-coronary artery saphenous vein bypass surgery; clinical and angiographic results, 379
Aortico-left ventricular tunnel in infant, successful surgical repair of, 691
Application of Roux-en-Y principle; surgical technique for management of reflux esophagitis after esophagogastrectomy for malignancy, 588
Arthritis: decreasing prevalence of tophaceous gout, 227
Asbestosis, pulmonary, ultrastructural morphometry of diffusion surface in a case, 193
Aspirin and gastric ulcer, 565
Assad-Morell JL, 379
Asthma: congenital H-type tracheoesophageal fistula complicated by achalasia in adult; report of case, 464
Asymptomatic carcinoma: overview of research in cancer diagnosis, 249
Atrioventricular valves, fluttering of, in patients with d-transposition of great arteries after Mustard operation; echographic observation, 69
Auditory evoked potentials, summated, in cerebellum and inferior colliculus in young rat, 57
Automated high-speed analysis of gastrointestinal myoelectric activity; symposium on gastrointestinal research (abstract), 529
Autosomal dominant polycystic kidney disease; recognition of "adult form" in infancy, 547

Bacteria: nocardiosis; review of 25 cases occurring during 24 months, 657
Bacteriologic and microscopic analysis of expectorated sputum, 339
Baggenstoss AH, 134
Baker K, 650
Banfield FD, 549
Barnett TG, 529
Barnhorst DA, 379
Barrier, gastric mucosal, past, present, and future; symposium on gastrointestinal research, 507
Basement membrane: alveolar soft part sarcoma; electron microscopic study, 591
Bass P, 530
Bastin E, 529
Bastron JA, 621
Beahrs OH, 279
Bears, nitrogen metabolism in; urea metabolism in summer starvation and in winter sleep and role of urinary bladder in water and nitrogen conservation, 141
Bence Jones proteinuria, clinical significance of, 234
Benign breast lesions and subsequent breast carcinoma in Rochester, Minnesota, 650
Berlin NI, 249
Bernard-Soulier syndrome, ultrastructure of platelets in, 402
Bilateral adrenal medullary hyperplasia in multiple endocrine neoplasia, type 2; precursor of bilateral pheochromocytoma, 3
Bile acid feeding, primary; influence on cholesterol metabolism and hepatic function in rhesus monkey, 134
Biliary bile acid composition in Wilson's disease, 229
Biliary fistula, obstruction, or sham operation in rats, copper metabolism after, 412
Blair EL, 532
Blood: platelets in preleukemia and myelomonocytic leukemia; ultrastructural cytochemistry and cytogenetics, 573
Blood cultures; principles and techniques, 91
Blood flow in heart: echocardiographic contrast studies; initial experience, 163
Blood flow and water exchange across forestomach epithelium; symposium on gastrointestinal research (abstract), 535
Blood pressure: hypertension, 709
Bone marrow: multiple myeloma; review of 869 cases, 29

Books by Mayo Clinic authors; reviews:
Agnogenic Myeloid Metaplasia, by MN Silverstein (reviewed by WH Crosby), 615
The Esophagus, by WS Payne (reviewed by JB Lind), 102
Inflammatory Bowel Disease, edited by JB Kirsner and RG Shorter (reviewed by HD Janowitz), 675
Laboratory Procedures in Clinical Microbiology, edited by JA Washington II (reviewed by JM Matsen), 159
Your Child's Ears, Nose, and Throat, by DTR Cody (reviewed by NC Grubbs), 557
Bowen-Jones E, 534
Bowie EJW, 402
Brain ventricles: cerebrospinal fluid, 482
Breast restoration following mastectomy for cancer, 453
Brigden LP, 402
Bronchogenic carcinoma, cryotherapy for; report of case, 435
Brown AL Jr, 193
Brown HA, 11
Brubaker RF, 322
Buckingham JM, 223
Bugajski J, 531
Bundle of His: supra-His alternate-beat Wenckebach dysrhythmia, 475
Burchell HB, 669
Burgert EO Jr, 542
Burgher LW, 407
Bypass, cardiopulmonary: anomalous systemic venous connection; surgical considerations, 599
Bypass surgery, aorta-coronary artery saphenous vein; clinical and angiographic results, 379

Calcitonin secretion: stimulation tests for diagnosis of medullary thyroid carcinoma, 53
Cameron AJ, 565
Cancer: benign breast lesions and subsequent breast carcinoma in Rochester, Minnesota, 650
Cancer diagnosis, overview of research in, 249
Carbon perfusion technique: microcirculatory obstruction in focal cerebral ischemia; relationship to neuronal alterations, 264
Carcinoma: breast restoration following mastectomy for cancer, 453
Carlson HC, 244
Carney JA, 3, 650
Carotid endarterectomy; complications and preoperative assessment of risk, 301
Cassan SM, 193
Cauda equina, unusual compressive syndrome of, 139
Cells in pleural fluid in differential diagnosis, value of, 571
Central inhibitory balance theory; pain, 685
Cerebellum and inferior colliculus in young rat, summated auditory evoked potentials in, 57
Cerebral ischemia, focal; microcirculatory obstruction in relationship to neuronal alterations, 264
Cerebrospinal fluid, 482
Cesarean section, low-incidence; 12-year experience, 365
Changes in plasma renin substrate, plasma and renal renin, and plasma osmolarity during glycerol-induced acute renal failure in rabbits, 111
Charlie Code, reminiscences; symposium on gastrointestinal research, 497
Chauve A, 529
Chaves-Carballo E, 209
Chemicals that activate the "on" switches of oxyntic cell; symposium on gastrointestinal research, 515
Chen MLC, 279
Chlamydia, isolation of, from patients with urethritis, 105
Cholesterol: lipoprotein profiles in adult nephrotics, 359
Cholesterol metabolism and hepatic function in rhesus monkey, influence of primary bile acid feeding on, 134
Cholic acid: fasting serum bile acid levels in primary hyperlipoproteinemias, 76
Chong GC, 279, 453
Chronic diarrhea: surreptitious laxative ingestion; delayed recognition of serious condition; case report, 706
Chronic hepatitis: Wilson's disease (hepatolenticular degeneration) of late adult onset; case report, 438
Chronic inflammatory polyradiculoneuropathy, 621
Chronic upper airway obstruction, pulmonary hypertension secondary to, 11
Citron J, 443
Clinical and pathologic correlation of fat embolism syndrome, 407
Clinical significance of Bence Jones proteinuria, 234
"Closing volume," one man's noise—other men's experiment, 17
Code CF, 141, 531, 535
Colonic motility in man; symposium on gastrointestinal research, 519
Compliance: hypertension, 709
Computerized transaxial tomography, use in diagnosis of tuberous sclerosis, 553
Conduction defects: fascicular, and ventricular premature contractions, 669
Conduction system in corrected transposition and common ventricle at operation, identification of, 387
Congenital and acquired abnormalities observed in live-born and stillborn neonates, 85
Congenital H-type tracheoesophageal fistula complicated by achalasia in adult; report of case, 464
Congenital hypertrophic pyloric stenosis; surgical experience, 312
Congenital kidney disease: polycystic kidney disease; recognition of "adult form" (autosomal dominant) in infancy, 547
Congenital malformations: successful surgical repair of aortico-left ventricular tunnel in an infant, 691
Connection, anomalous systemic venous; surgical considerations, 599
Connolly DC, 379
Contact lenses, soft, therapeutic use of, 443
Contractility, myocardial, and left ventricular function; analysis by roentgen videoangiographic techniques, 147
Contrast studies, echocardiographic; initial experience, 163
Control of diabetes: effect of intrahepatically implanted islets of Langerhans on hepatic function in rat, 416
Controlled study of restricted protein and fluid diet and infrequent hemodialysis versus conventional hemodialysis treatment; uremic neuropathy, 641
Copper metabolism after biliary fistula, obstruction, or sham operation in rats, 412

Cor pulmonale: pulmonary hypertension secondary to chronic upper airway obstruction, 11
Correction of transposition of great arteries, anatomic, 638
Corticosteroid-induced glaucoma: open-angle glaucoma associated with topical administration of flurandrenolide to eye; report of case, 322
Cowen AE, 229
Cowley DJ, 534
C-peptide analysis in diagnosis of factitial hypoglycemia in insulin-dependent diabetic, 697
Cryotherapy for bronchogenic carcinoma; report of case, 435
Cultures, blood; principles and techniques, 91
Cystic tumors: hemangiosarcoma of the liver; spectrum of morphologic changes and clinical findings, 255
Cytochemistry and cytogenetics, ultrastructural; platelets in preleukemia and myelomonocytic leukemia, 573

Encephalopathy and fatty infiltration of viscera (Reye-Johnson syndrome); 17-year experience, 209
Endarterectomy, carotid; complications and preoperative assessment of risk, 301
Endometriosis: role of surgery in management, 198
  small-bowel obstruction secondary to, 239
Enzymes: effects of monobutyryl cyclic adenosine monophosphate on gluconeogenic intermediates, phosphofructokinase, and fructose diphosphatase; gluconeogenesis in isolated hepatic parenchymal cells, 271
Epicardial and endocardial heart surfaces: left ventricular function and myocardial contractility; analysis by roentgen videoangiographic techniques, 147
Epithelial cells: microscopic and bacteriologic analysis of expectorated sputum, 339
Esophageal compression: mediastinal granuloma, 702
Esophageal disease associated with rheumatoid arthritis and therapeutic considerations; symposium on gastrointestinal research (abstract), 534
Esophageal hiatal hernia, sliding, and reflux peptic esophagitis; symposium on gastrointestinal research, 523
Esophagitis, reflux, after esophagogastrectomy for malignancy, surgical technique for management of; further application on Roux-en-Y principle, 588
Esophagus: congenital H-type tracheoesophageal fistula complicated by achalasia in adult; report of case, 464
Euthyroid patients, thyroid radioiodine uptakes and scans in, 79
Evaluation of renal and urinary tract abnormalities noted on scintiscans; retrospective study of 1,711 radioisotope skeletal surveys performed in 18-month period, 370
Evoked potentials, summated auditory, in cerebellum and inferior colliculus in young rat, 57
Exophthalmos; more commonly encountered neurosurgical lesions, 343
Expectorated sputum, microscopic and bacteriologic analysis of, 339
Eye diseases: use of therapeutic soft contact lenses, 443
Eye protrusion: exophthalmos; more commonly encountered neurosurgical lesions, 343
